

February 2019

“xxxx was there on time, and even rang to let me know she might be late because of the weather, though she was already there when I turned up. She was very friendly and informative, she wasn’t too pushy regarding the courses available but let me decide what I wanted to do. She gave me plenty of information and explained anything I didn’t understand, all in a very friendly manner. Overall I thought she was great and am happy to see her again, thanks very much for organising it”

Hope everything’s going well with the project, and will continue to promote your service 😊
